NEWS ITEMS OF INTEREST

A white married woman at Evansville, Ind., was so fascinated by the banjo playing of a wandering negro that she eloped with him.

At a late sale in Paris a book by a modern binder, Trautz-Bauzonnet, a master of the art of inlaying, sold for $3,200, of which at least $2,200 was paid in respect of the binding.

A benevolent Detroit dentist announced that on a certain day he would pull teeth free for poor persons and provide laughing gas. He used 700 gallons of gas and extracted 271 teeth.

Maple sugar made from the sap of a tree in Williamstown, Vt., at the roots of which the brine from the farmer's beef and pork barrels had been emptied last autumn, was so salty as to be worthless.

The three sons of Z. D. Bowen of Wadley, Ga., all use crutches. Their bones are so soft and brittle as to often break from even a slight jar. The oldest, Sylvester, has already sustained twenty-six fractures.

A candidate for the office of Recorder of Jasper county, Ohio, solicited votes on the ground that, if elected, he would return half his salary to the public treasury. He was elected but the Supreme Court has declared the election void, because the inducement that he offered to voters was in the nature of a bribe.

Mr. Waring, a recent candidate at an English election, adopted a neat mode of stigmatizing an opponent. He asked those he addressed what they called a man who made such and such charges, knowing them to be false. The response came back: "A liar." "Well," said the candidate, "I will not dispute you."

An old messmate of Capt. Stirling of the missing British naval training ship Atlanta says that the Captain, when a midshipman, was the fortunate captor of the famous Chinese Commissioner, Yeh, at the storming of Canton in 1858. He pulled the old gentleman back by his pigtail as he was diving through a window, and wore his watch as a trophy ever after.

An insidious worm called the fluke is causing losses among the sheep in Great Britain actually exceeding, in the aggregate, the cost of any of the wars which have figured in the indictment upon which the Tory Ministry is said to have been found guilty. In some parts of England, chiefly in the southwestern provinces, whole flocks have perished, and not a single sheep is sound.

"I am told," said Mr. Gladstone to Mr. Sam Ward one evening at Dalmeny after a day of great oratorical conflict, "that you have in your country a man who can play on a harp of a thousand strings." "Yes," was the reply, "but I have listened to a man to-day in this country who can play upon a harp of ten thousand strings." Mr. Gladstone is understood to have been pleased with the compliment.

An Outspoken Opinion.

From the Cincinnati Commercial.

If there is a third-term candidate, there will be a third candidate.

If the Republican party has nothing better to offer the country than a third term of Grant, it is high time the party was resolved into its original elements.

If the Presidency is a perquisite of the ex-President, and the country is a pocket-piece of Conkling, the great war didn't help our political situation much.

EDITORIAL NOTES.

This, from a New York paper, in reference to public speaking, we commend to the consideration of our Reform Club speakers: "With a written address stiffly read there can be little or no sympathy between the speaker and his audience. He generally fails to capture their attention, and produces drowsiness where he expected cheers. For the speaker who wants to find out what there is in him in the line of oratory, it is far better to abandon the cautious habit of writing his speeches, and, taking courage from the fact that extreme precision of language is expected from him only when he writes, fearlessly 'think aloud' upon his legs like a man."

The New York *Tribune* says: "The managers of the Minneapolis Fair are resolved to have a big crowd next September at all hazards. They have arranged a twenty-mile race between Miss Belle Cook, of California, and Miss Jewett of Minnesota. Horses are to be changed frequently, and the dexterity with which the riders can dismount and remount will be a most important feature of the race." Miss Cook is the name by which Mrs. John W. Paul of Santa Clara county, Cal., is known in equestrian circles. She was recently the victim of a murderous assault by a masked man who went to her house in the night to kill her. Although left for dead, she was not fatally injured.

The Russian newspapers publish accounts of the army and navy of China, from which it appears that the flowery kingdom is not a formidable warlike power. They say that China has only about 50,000 men armed with modern weapons, and that the ships of the Chinese navy are for the most part badly built and badly manned. Almost all the Chinese war vessels are commanded by Chinamen, believed to be entirely inefficient men.

It is estimated that a Chinese coolie will keep body and soul together on two dollars a month; with twice that sum he is able to live very comfortably, for the Chinese sapegue, which is the current coin, is not above the fifteen-hundredth fraction of a tael ($1 50), and for ten sapegues he can buy a dish of rice or vegetables from the venders in the streets.

The New York *Times*, a leading Republican paper, is making active war on Blaine and Sherman. The *Tribune* continues its warfare on the third term and everybody opposed to Blaine, and the *Herald*, of course, still wants anybody to beat the ex-President.

When Gladstone is about to make an important speech in the House of Commons, he makes his appearance with his hair oiled and a flower in his button hole. It is said that his wife always knows when there is a speech on his mind, and grooms him for the occasion.

The Anti-Third Term Convention at St. Louis is receiving a good deal of attention. Such well known Republicans as George William Curtis and Carl Schurz lend their influence to the Convention.

Tilden always walks with his toes turned in. He dresses well. His appearance is described as cheerful, and his complexion that of a man whose stomach is all right.

Wisconsin sends an uninstructed Republican delegation to the National Convention. Tennessee Republicans will send a delegation mainly composed of Grant men to Chicago.

The delegates to Cincinnati chosen by the New Hampshire State Democratic Convention are not pledged nor instructed.

Photographs are now successfully taken on leather. Leather photographs should wear well, and will undoubtedly come into demand.

The Grand Prize is the only Elko county mine that produced any bullion in April. The total product of this mine was $36,445. The discount on the silver was $4,527, and the net gold value of the yield was $31,481.

The Republicans of Esmeralda, Douglas, Ormsby, Lyon, Storey, Washoe, Humboldt, Elko, Eureka and White Pine—ten counties out of the fourteen in the State—have declared for the nomination of James G. Blaine.

George Sanderson was found dead in his room in Virginia on Wednesday night. He was shot through the head in front of the ears, but there were no marks of powder on his face. His wife said he had shot himself, but she has been arrested on a charge of murder.

Last Sunday two travelers arrived in Santa Cruz on bicycles, having made the trip from San Francisco, via Pescadero, in two days, and suffered much hinderance from bad roads. In the afternoon they started on the return trip, going over the mountains, via Wright's Station.

Says the Carson *Times* of Tuesday: The Mint commenced active work yesterday. Its force of employes number sixty-eight—fifty-six men, twelve ladies. The Mint has a sufficient supply of bullion on hand to insure continuous work for two months, and more is arriving daily in encouraging amounts.

The police of Denver made a systematic raid on the opium dens May 4th. There are ten of them which are kept by Chinamen, and are patronized by American men and women. During the past year two tons of opium, valued at $90,000, were smoked in these places. The evil is spreading to all classes of society, and young people are fast falling victims.

The immigration to Southern Arizona is very large. Hotels in Tucson are crowded to overflowing. A hotel with 200 rooms is badly needed there. The travel to Sonora is increasing largely every day, on account of the reported rich mineral discoveries in the Alter and Cienego Districts. The average temperature at midday in Tucson for the last three days has been 91.

Last Saturday says the Eureka *Sentinel*, Messrs. Cazuax and Wallace were driving cattle. When within two miles of town they dismounted to tighten their cinches. While thus occupied, a maddened ox attacked them and made it very warm for a while. Mr. Cazaux's saddle horse was killed on the spot, and in turn the ox was killed by a shot from Cazaux's pistol. It seems to have been a pretty desperate fight all around.

The Black Hills of Dakota are included between the Belle Fourche and the south fork of the Chyenne river, extending in a direction north twenty degrees west for a hundred and twenty miles with a breadth of from forty to sixty miles. They cover an area of nearly six thousand square miles, two-thirds of which is in Dakota, the remainder in Wyoming. The population is 40,000.

A Satisfactory Showing.

CHICAGO, May 5, 1880.—William Vanderbilt, President of the Lake Shore and Michigan Southern Railroad, in the annual report for 1879, which will be submitted at the stockholders' meeting to-morrow at Cleveland, shows the gross earnings of the company to be $15,271,492; net earnings, $6,336,968; increase in net earnings, $843,803. The net earnings are the largest in the history of the road.

What! Never?

There is a man at Luray, Va., who became convinced, when young, that kissing was wicked, because Christ was betrayed with a kiss. He resolved never to kiss anybody. He has been married twenty years, and is the father of eleven children, but has never kissed his wife or one of his offspring.

Mexican herders stole all the eggs that Sheafer's hens laid at Webb, Texas. So he bored holes in several eggs, and drugged them with tartar emetic. There were several very sick men in the neighborhood next day, and Shaefer was delighted; but that night he was mobbed, and so nearly killed that his recovery was at first deemed impossible.

Who fills your mind with the horrid thought that Dry goods have advanced? Only those who are anxious to grab the largest profits. Do not mind such nonsense, but step into Sol Levy's store, examine his new mammoth stock and convince yourself of the tumble prices on goods have taken. apr9

MINING LAWS.

A Proposed Substitute for the Square Location Amendment.

WASHINGTON, May 5, 1880.—At today's meeting of the House Committee on Mines and Mining, Representative Belford offered a short and simple substitute for the Public Land Commissioners' bill. The substitute proposes to confine all new legislation on the subject of an amendment of Section 2322 of the Revised Statutes by adding to said section the following words: "And in all cases where the main dip of the lode, vein or ledge does not exceed thirty degrees from the horizon the right to follow the mineral shall not extend beyond the side lines drawn downward vertically."

Senator Jones and Representative Daggett were present when this substitute was offered. They stated that they could see no objection to its adoption, they being satisfied that a distinction should be made between flat lodes and fissure veins.

Senator Jones, in the course of his argument before the committee to-day, cogently remarked that the miners are familiar with the existing law, and that all convertible questions growing out of it have been adjudicated. He then distinctly intimated his opinion that the pending bill had been gotten up in the interests of mining lawyers and so-called experts, who desire new laws and new conditions in order to open up for themselves further opportunities for employment.

A Fine Thing for the Teeth.

Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kindom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalming or anteseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, etc. It is entirely free from the injurious and acid properties of tooth pastes and powders which destroy the enamel. One bottle will last six months. D & W

No one need suffer with neuralgia or tooth ache. A few drops of Mrs. Dr. Howe's celebrated toothache medicine will instantly stop the pain and save the tooth. jan27-alm

I Wish Everybody to Know.

Rev. George H. Thayer, an old citizen in this vicinity, known to every one as a most influential citizen, and Christian Minister of the M. E. Church, just this moment stopped in our store to say, "I wish everybody to know that I consider that both myself and wife owe our lives to Shiloh's Consumption Cure." It is having a tremendous sale over our counters and is giving perfect satisfaction in all cases of Lung Diseases, such as nothing else has done. Bourbon, Ind., May 15, 1878. Drs. Matchett & France. Sold by Osburn & Shoemaker, Druggists, Reno, Nevada. nov 3 m w

Stop That Cough

With a sample bottle of Kaiser's German Elixir. This is the most wonderful cough remedy ever introduced, being mild, yet positive in its action and soothing under all circumstances. Old and young may use it with perfect security. It is rich in the medicinal properties of tar, wild cherry and horehound. Ask your druggists, Messrs. Osburn & Shoemaker, about its merits. They sell large quantities of it and say it supercedes all others. The genuine bears the Prussian coat of arms and the facsimile signature of Dr. Kaiser on the wrapper and has his name blown in every 75 cent bottle. Samples 25 cent. Large size 75 cents. feb3-d&w

JOTTINGS.

—The river is subsiding.

—Con. Imperial is assessed 10 cts.

—The New York and Overman assessments are delinquent.

—The Northern Belle Mining Company expects to pay a dividend of 50c per share this month.

—No cattle have been shipped from Reno lately, and there are none in the market for shipment.

—There are messages in the telegraph office for Jonathan Morgan, John Sturgeon and John Kleppe.

—Walking is going to be the fashionable out-door amusement in Reno this year, owing to the dull times. Sunderland has laid in a big stock of boots and shoes to supply the expected demand.

—Mr. Blanding, a mining expert of San Francisco, has been detained by a fit of sickness from visiting Reno. He is going to inspect the Con. Esmeralda mine with a view of purchasing the property for an eastern company, it is said.

—"Yours is the nicest looking hat in Reno," remarked a lady to a gentleman friend the other evening. "That can hardly be," he answered, "for Sunderland has sold a lot more of the same style." The fact is that Sunderland keeps as fine hats as can be found on the coast. His hats are obtained from the best makers in the East.

A Long Way Around.

There is so much snow on the mountains to the west of Sierra valley that it has been impossible to drive cattle over them from the valley to Camptonville and the numerous small mining camps of Nevada and Sierra counties. In most winters cattle can be driven over without difficulty. This spring several lots have been driven to Reno, shipped by rail to Dutch Flat, and thence driven to their destination. This roundabout route measures about 200 miles, while by the direct trail over the mountains the distance is only about 30 miles.

Auction of Plants.

A choice lot of shrubbery and floral plants will be sold at auction to-morrow at 1 o'clock, at Carlow & Phillip's store on Virginia street. They are from the Rosedale nursery at Sacramento, and are of the kind suited to this climate. The plants will be closed out promptly. This is a rare chance for Reno ladies to secure something nice at a low price.

WADSWORTH NOTES.

A Justice of the Peace is wanted at Wadsworth, in place of G. Griswold, resigned.

The Engineers and Mechanics' library at Wadsworth has by recent purchases been increased to over 500 volumes. A better library of its size cannot be found in this State.

A number of freight teams have lately arrived in Wadsworth. Teaming there is lively at present.

Edward Sheply is dangerously ill with pneumonia. Much interest is felt in his case, since he is a young man most highly esteemed in Wadsworth.

Alexander bullion will after the 15th instant be shipped via Austin instead of Wadsworth.

It is generally belived that the machine shops will be moved from Wadsworth early in the Summer. McPherson says that the work of moving the carpenter shops will commence in one month.

The public school at Wadsworth closed for the school year last Friday. The following are those on the roll of honor. Lena Raphael, Belle Pope, Gussie Raphael, Clara Jordan, Carrie Raphael, Walter McPherson, George McPherson, Willie Brasher, Mary Lievre, Wm. Gladding, Geo. Blundell Amie Blundell and Katie Stewart.

E. Griswold, late Justice of the Peace, of Wadsworth, will start east next Sunday morning to visit his relatives and other friends.

Crosby's dancing school still flourishes three evenings in a week.

The two steam wagons were hauled out of town on freight teams. The intention was to fit them up and run them to their destination, the San Antone Mining District, by steam. But they had been shipped before the boss came to Wadsworth.

Prof. Lucien Alston, an original genius, a man of musical talent, etc., will give a concert and lecture next Sunday evening at Wadsworth. He wants to organize a writing class. Subject of lecture: "The crisis of the world's creation."

The ladies of Wadsworth will give a grand Bon Bon party at Gladding's hall on the night of the 14th instant.

A New Invention for Preventing Runaways.

Mr. O. Dunkle, says the Eureka *Leader*, has just received from the Patent Office at Washington a patent for what he terms his "Vehicle Device for Hitching Horses." In brief, this invention consists of a lever attached to the bed or body of the vehicle, and so connected with the single-trees and horses' bits, that when left standing, in case the horses move ahead, their motion will operate the lever and draw their heads apart or together, thus checking them. Then, when they back in obedience to the check they receive, the pull will be relieved. In driving the ordinary lines are used; but in case of the horses attempting to run, the driver can draw on the check-rein which is used with the lever, and thus draw the horses' heads to either side and stop them, and this without reference to the driving reins.

With this device anyone can stop the most incorrigible runaway team, and serious, and often fatal, accidents be avoided. Its efficacy has been tried by the inventor time and again in Eureka, and it has been found to work to a charm.

Pyramid Mines.

"Things is workin'" at Pyramid. The water at the Jones & Kinkead is decreasing. The two bulkheads in the south drift have been removed and the drift advanced until it taps the unexplored south ledge, which looks so well at the surface. It will be reached in about 25 feet. Two winzes have been sunk in the heavy black streak of rich ore on the 400-foot level, one 25 feet and the other about 20. They have been suspended on account of water. At the bottom more and more quartz kept coming in, and there is a prospect of the ore being better milling ore than that above. There is much beautiful blue coloring, like peacock copper ore in it. The 300-foot level is being opened up, and Mr. Jones thinks it will mix and work well with that on the 400-foot level. Aplin is digging away at the Crown Prince, and several claims are being worked more or less.

W. B. Taylor Sells a Mine.

It appears that Mr. Taylor's recent visit to the East was a successful one. The Bodie *News* of April 30th has the following: "On the 25th of March Mr. W. B. Taylor, an old type, left Bodie for New York with the North Bulwer mine bonded for thirty days. On the 24th of the present month, Mr. Taylor returned, having accomplished the sale of the mine for fifty thousand dollars, subject to the report of S. N. Hoyt, a mining expert of large experience. Mr. Hoyt having examined the property and appreciating its great value, immediately closed the sale."

A Captive Pelican.

Harry Fogg has a live pelican in a shed at the rear of his meat market. The bird was found in a ditch below Kelley's ranch by James Galt. It had been slightly wounded by shot and was unable to fly. Galt brought it up to town and gave it to Fogg. The bird's appearance is very peculiar. Its bill is about a foot long, and the lower mandible is provided with an elastic pouch, big enough to hold a large fish. The beak terminates in a sharp hook. The hook is hard and horny, but the rest of the bill appears to be soft like that of a duck. This pelican has a very threatening manner of resenting any intrusion upon its privacy. If anyone goes near, its enormous bill opens wide enough to take in a man's head, and closes with a noise resembling that produced by shutting an umbrella suddenly. The compression of the air in its pouch is what causes the peculiar sound. The action is highly ludicrous.

The bird's plumage is entirely white, and it has a prominent tuft or top-knot of small feathers on its head. The eyes are very bright, vigilant and fierce. The bird crouches upon the ground most of the time, its neck arched and its bill reposing upon its breast. The attitude reminds one of Nast's caricatures of Conkling. The swelling breast, the lofty air, and expression of cold disdain in the bird are also characteristic of the politician.

The pelican is a rare bird in Nevada. A few have been seen in this county, but this is said to be the first ever captured here. It is a water fowl, and dwells by the sea or in the lakes and streams of the interior. It is a fish-eater, and consumes a vast quantity of fish food. Mr. Fogg feeds his with meat, but the bird's appetite is failing and he proposes to put it in the river to forage for itself, but he fears that the boys would shoot it. Henry Johnson has some idea of purchasing the bird, and training it to catch Truckee trout for the market.

Personal.

F. A. Trittle was a passenger for California last night.

E. F. Gerald and C. E. Chappell, auditors of the C. P., were in town last night.

Hon. C. C. Goodwin went to Virginia this morning. He will know in a day or two where he will locate.

Dave McFarland got home from Sacramento to-day. The Arcade bar is decorated with two beautiful bouquets that he brought with him.

Prof. L. S. Burchard, a gentleman connected with a leading educational institution of the East, is visiting Reno, and expects to remain in town a week.

Rev. C. Mulholland will deliver the address before the Reform Club tomorrow evening. Mr. Mullholland was a member of the last California Legislature and a very active one. He will have something good to offer.

A Scarcity of Women.

The Bodie *Free Press* says: There is a demand for women in Mill Creek. There are but two or three there, and they are worried to death with the frequent calls of the males. It is said that a row of men can frequently be seen in front of a tent, waiting their time to get in. The husbands of those ladies in Mill Creek are thinking seriously of hiring a lot of Bodie fighters to stand off the men there, as matters are beginning to look serious. Yesterday seventeen letters were received here asking for housekeepers. A woman in the humblest walk of life commands more respect in Mill Creek than does the Queen of the Sandwich Islands in her native jungle.

Another Nevada Railroad Company.

On Saturday last articles of incorporation of a railroad from Wadsworth to Collville, Colorado, were filed in the Secretary of State's office in this city, says the Carson *Tribune*. The incorporators are ex-Senator Dorsey, of Arkansas, and a number of prominent New Yorkers. The distance between the two places named is 350 miles, and the articles of incorporation state that the sum of $1,000 per mile has been paid in. This company is said to be entirely separate from the company which talk of building from Wadsworth to Walker Lake, and with which ex-Governor Woods and Mr. Holmes are connected.

Stock in Goose Lake.

The three days severe storm which prevailed the first of last week, was more fatal to stock in Goose Lake valley than the whole winter previous. Up to two weeks ago the loss was very trifling; but we are informed by a rancher that the loss now will reach fully fifty per cent. Stanley Berry has lost 84 head; Mart Henderson 40; Dave Leonard 15. George Groves lost his entire band of twenty head. D. U. Snider's loss, says the Modoc *Independent*, will be between 100 and 150 head. Swift & Braunhart and Clack Franklin took their cattle out to Willow creek to winter. The former lost 40 head, and the latter 20.

A Good Arrangement.

The stage line between here and Pyramid is a great accommodation to people interested there. A man can leave here at 6 o'clock any day, reach Pyramid City at 10:30 and stay until 2, getting a nice dinner at Monroe's or Hymers', and reach Reno at 7 in the evening. Mr. Calderwood has fine teams and good coaches.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City

Not To Be Insulted With Impunity.

Judge Haydon and Michael Murphy were settling an account on Schooling's corner last evening. A dispute arose over the sum of seventy-five cents. Michael Murphy was moved to call Mr. Haydon "a lawyer" or some similar offensive epithet, whereupon the latter knocked him down. This morning the Judge was arrested by Constable Avery and, pleading guilty, was fined $25 by Justice Young.

Miss Baymer and Bicycle at Eureka

A female bicyclist is exhibiting her locomotive powers in Eureka. She rides a 52-inch wheel. The *Sentinel* artfully recommends all "who admire the muscular development of the female sex" to go to see her. Miss Baymer, the bicyclist, is described as beautiful in form and features. A man is said to have ridden 200 miles on horseback to Eureka to get a look at her. She may come this way.

A New Newspaper.

John. C. Curry, of the Bodie *Standard*, passed through Reno Wednesday night on his way to San Francisco, to purchase new material for the Homer *Mining Index*. It will be started as a weekly at Lundy, Homer District, Mono county. J. E. Baker, formerly of the GAZETTE, is connected with Mr. Curry in the undertaking.

Colt in the Pound.

There is a black, gelded, yearling colt in the pound. Avery captured him two days ago, and purchased half a bale of hay to feed him with. Yesterday another stray horse got into the pound and went away again, after eating all the hay up. Hay is $20 a ton now, and Avery didn't relish the equine joke.

NOTE THIS FACT.—To subscribers in Reno, Wadsworth, Winnemucca, Elko, Pioche, Austin, Aurora, Candelara, and all other towns in Nevada, the Virginia Chronicle brings all the Eastern Telegraphic News, Comstock Mining News, Virginia City items and State News, 12 to 24 hours ahead of any other newspaper.

The Chronicle is a thorough newspaper. It is a daily epitome of the world's history. While Democratic in its principles, it is the organ of no political organization. Nor is it the servant of any corporation. It advocates Democratic principles because it believes that the fundamental doctrines of that party form the life and essence of the American system of government, while those of the Republican party aim to the overthrow of popular government.

Treat all Chronic and Special Diseases

YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice $5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
